A Sense of Company

With more than 90 years of experience, SCHMITZ is one of the leading international manufacturers of medical products.

A family-owned business with a living tradition. Our typical employee has been with the company for some 18 years, proof of how strongly they identify with our values and philosophy.

In 2012, the company's management passed to Friedrich and Matthias Schmitz, the fourth generation of the family.

We are proud to be located in Germany and are deeply rooted in our home region. We develop and manufacture here.

90% of our suppliers are from Germany, of which 60% are from the local region.

Made in Germany

A Sense of Care

We understand the services which are our lifeblood, and aim to achieve maximum customer satisfaction. From consulting through planning to installation.

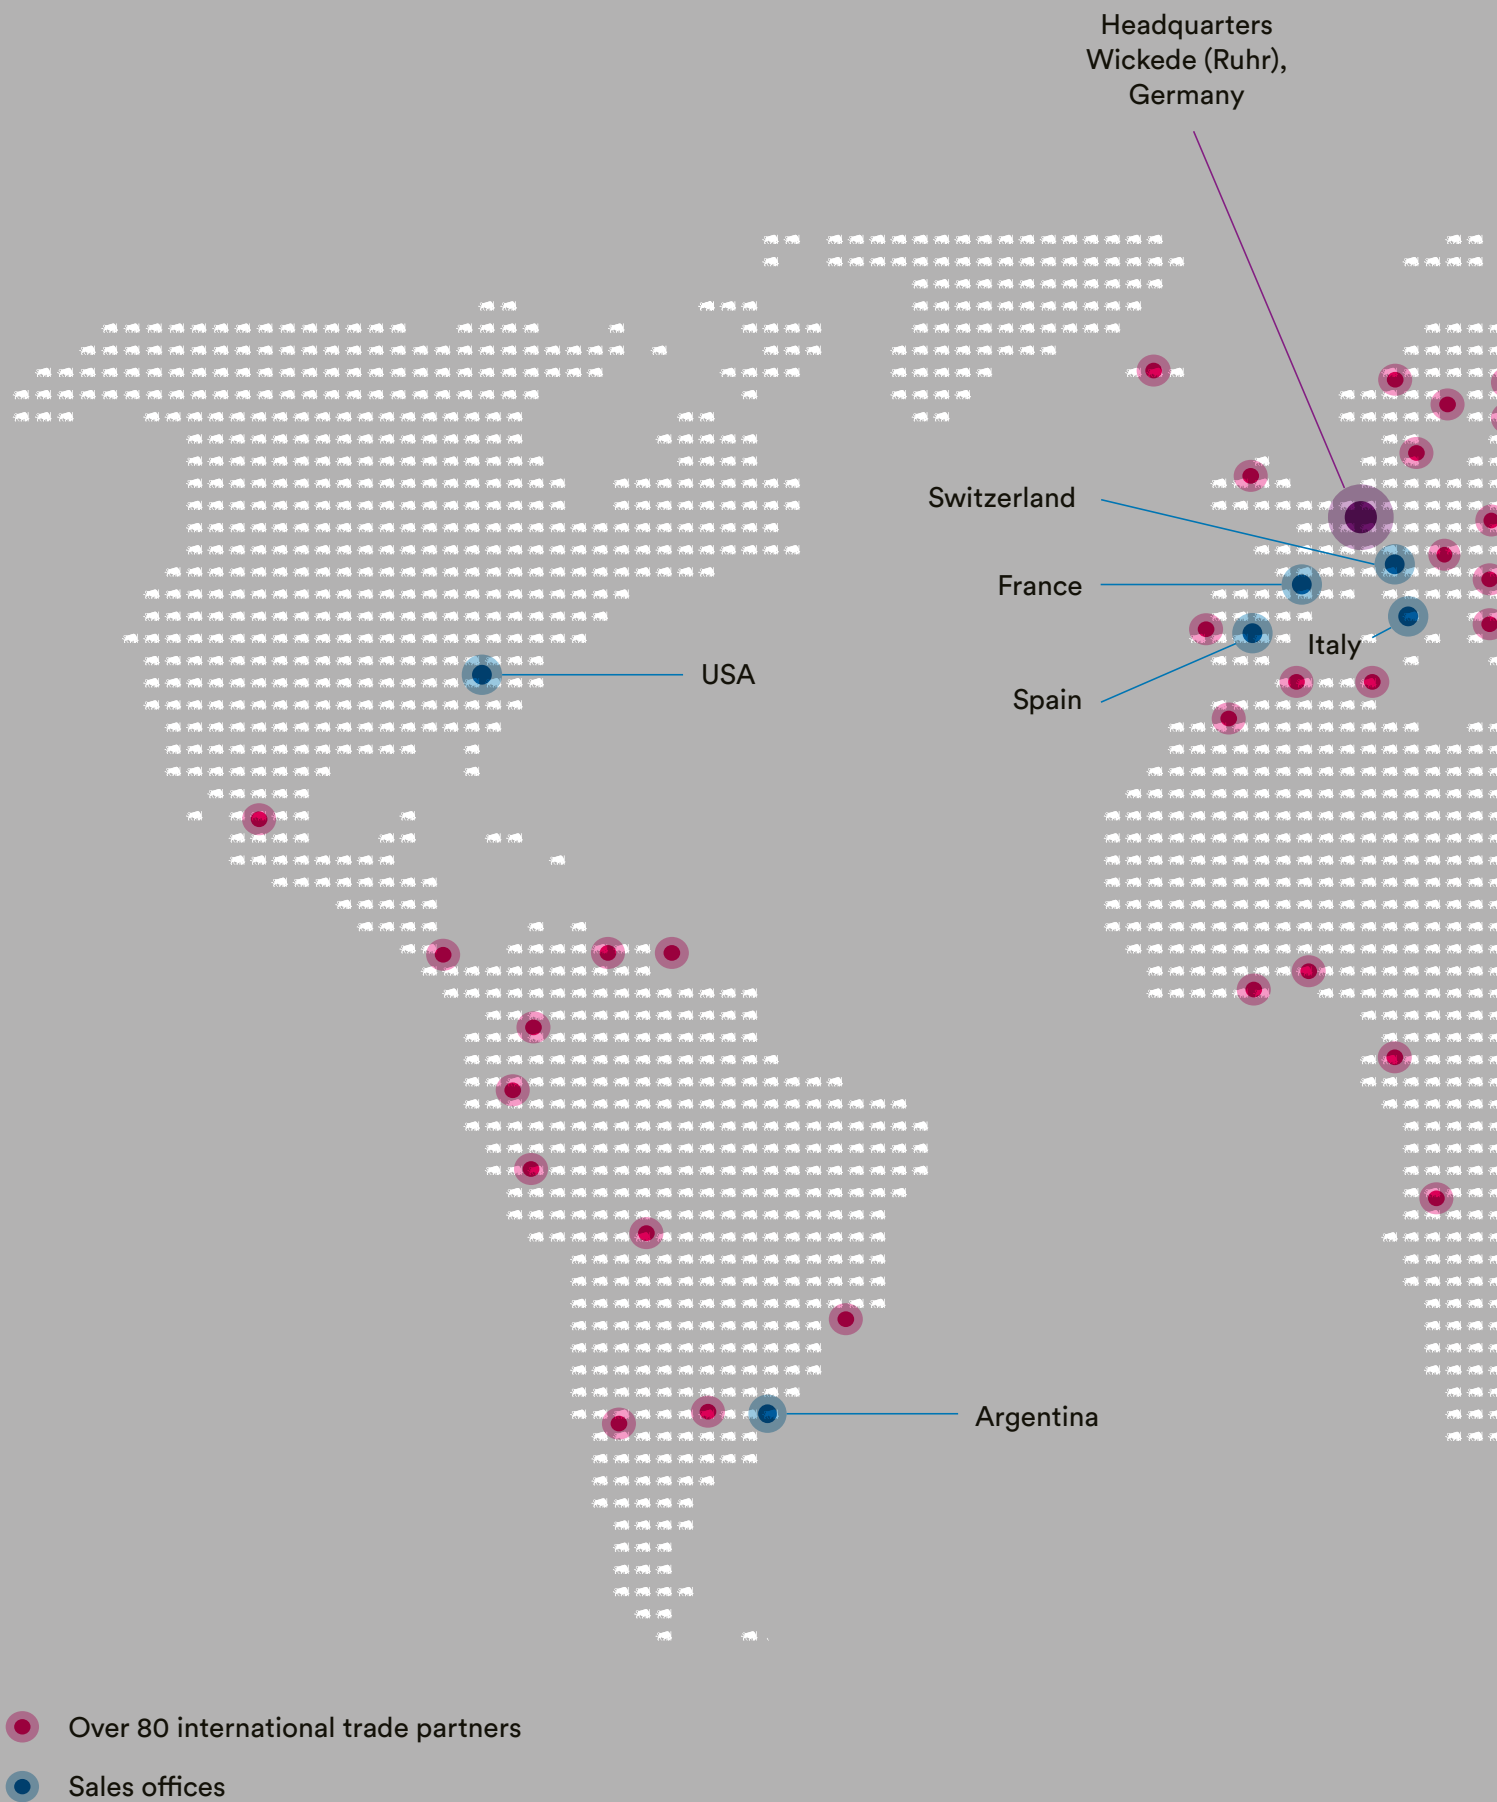

Cost-effectiveness through longevity is what you can expect from us.

With a well thought-out service concept and comprehensive support, SCHMITZ works alongside you as partner from start to finish.

SCHMITZ – represented worldwide

medi-matic®

Groundbreaking technology and fascinating design.

The combination of optimised functionality, first-class comfort and elegant design make the medi-matic® the best in its class. Developed to set new standards in daily medical practice and clinical use.

Sophisticated design

Thanks to the high-quality materials and its attractive design, the medi-matic® guarantees a professional, confidence-inspiring atmosphere.

Ergonomics and efficient work

Equipped with up to four motors, the medi-matic® enables optimal examination positions to help you work ergonomically.

Convenient and safe

Its low starting height of 550 mm makes it perfect for getting on conveniently and easily without a mounting step. The leg positioning systems detach easily – ideal for wheelchair users and for transferring patients.

medi-matic®

Intelligent control: The control elements

Illuminated visual display

Keep an eye on everything! The illuminated visual display optically shows all chair movements and also features an electronic diagnostic function.

Additional programmable keys

for seat heating (gynaecology) or water inflow for basin with gyro flushing (urology) and triggering of a cold light source or a colposcope with integrated sockets.

Memory function and simultaneous startup

More time for your patients, less time spent finding the optimal setting on the treatment chair – the result of decades of development and experience. With up to eight memory positions, several doctors can save and access their preferred examination positions at any time.

Soft start-up and ergonomic sequence

All of the motors of the medi-matic® feature a soft start-up and ergonomic motion sequence. Safety for the patient at all times!

Foot or hand operation for
the control of all adjustments.

medi-matic® CCM

Model overview

Model No. Description

115.7150.1 medi-matic® Examination and Treatment Chair
Electromotive adjustment of Trendelenburg position and back section, and in addition electromotive height adjustment from 600 - 900 mm, mounting height: 550 mm.
Activation of all functions by means of foot control.

115.7250.1 medi-matic® Examination and Treatment Chair
as 115.7150.1, however in addition with memory function for storing of 8 positions. Activation of all functions by means of hand and foot control.

115.7550.1 medi-matic® Examination and Treatment Chair
as 115.7250.1, however in addition electromotive adjustment of foot supports. (without foot supports/ Please consider corresponding ref.-no. 101.4420.1 or Göpel-type leg supports 101.4550.0)
Activation of all functions by means of hand and foot control.

**All basic models are without leg positioning system, please choose from five options: page 24/25.
Optional mobility: page 29.**

product and colour
configurator!

Rinsing basin, plastics, extensible

Storage compartment for paper rolls.
Suitable for: 400 mm paper roll width, Ø approx. 140 mm.
500 mm paper roll width, Ø approx. 120 mm.

Removable seat padding for perfect cleaning and easy replacement.

Bracket for manual control unit made of 18/10 stainless steel, can be fitted on the left or right side as required, snap-in function (115.7250.1 and 115.7550.1).

Foot control for 115.7250.1 and 115.7550.1.

Foot control for 115.7250.1 and 115.7550.1 with basin with gyro flushing
The water valve is controlled by an additional function key.

medi-matic®

Standard equipment

Seat, back and head sections with ergonomic upholstery, rinsing basin of plastics, extensible, storage for paper rolls up to 500 mm width, activation of the adjustment and memory functions via hand and foot control (model-dependent equipment). Base plate with 4 levelling screws, plastic claddings and covers in silver-grey, telescopic cladding of column and seat/back section frame powder coated acc. to colour chart, upholsteries acc. to colour chart. Foot support mounts for quick removal or individual swivelling on a horizontal level of foot supports or Göpel-type leg supports with integrated handles (not available for equipment with side rails 101.1370.0). Connection cable of 3 m with mains plug (upon request, prepared for fixed connection to the wall/earth, without connection cable). Power supply: 230 V, 50 Hz, max. 0.45 kW. Country specific versions available upon request. Safe working load: 200 kg.

Important

Examination chairs with side rails 101.1380.0 at the back section are equipped with a back section pad which is flush with the lateral back section frame, see page 42, middle image.

Electric sockets

Chair can be equipped with 2 power sockets acc. to safety standards EN 60601-1! See page 27.

Country specific versions available upon request.
Subsequent fitting not possible.

Powder coated finish

High quality multilayer gloss paint of extreme knock and scratch resistance. Easy to clean and to disinfect. Resistant to climatic conditions. Available in SCHMITZ colours acc. to colour chart, page 152 (without surcharge). Further optional colours acc. to RAL colour chart at extra charge.

Upholstery

High quality, hard wearing foam rubber with leatherette cover. Available in SCHMITZ colours acc. to colour chart without surcharge (classic and comfort qualities).

Ordering information

Please specify when ordering:

Foot/leg support system: see page 24/25
Upholstery colour: see colour chart page 152
Plastic enamel coating: see colour chart page 152

Model No.	Description
100.0510.0	Further optional colours acc. to RAL colour chart at extra charge.

Foot supports can be lowered to 200 mm above floor level with seat section in horizontal pos. or even to 95 mm with seat section inclined by -5° (115.7550.1)

¹ in connection with mobility 101.2300.0 please add 75 mm.

Leg support systems

Model No. Description

- 101.4420.1 Foot supports (pair)**
with integrated, powder coated handles,
can be swivelled to the side, lockable.
Leatherette covers for handles acc. to colour chart.
Plastic foot support covers of transparent PU material.

- 101.4550.0 Leg supports, Göpel type (pair)**
with integrated, powder coated handles.
Leatherette covers for handles acc. to colour chart.
Leg supports with integral foam upholstery in
silver-grey, including fastening strap, rod of
stainless steel 18/10.

- 101.0369.0 UniLeg leg supports (pair)
with peroneal nerve protection E**
height-adjustable and spreadable from foot end,
with gas spring support, plastic covering with pad
for foot and lower leg, adjustable in all positions,
with integrated side rail mount.

- 101.0678.0 UniLeg leg supports (pair) E**
Same as model 101.0369.0 UniLeg,
but **without** peroneal nerve protector.

Note:

Please note that the alternative 'Price group E' for
surgical accessories applies for the two UniLeg models.
The retailer discount may therefore vary!

Model No. Description

101.2270.0 Göpel leg support (piece)
covered integral foam upholstery in silver-grey,
including fastening strap, rod of stainless steel 18/10,
excluding attachment clamp.
(requires 101.1370.0 and 101.1670.0)

101.1370.0 Side rails (pair)
for the seat section, stainless steel 18/10,
25 × 10 mm, 290 mm long.

101.1670.0 Attachment clamp (piece)
revolving, stainless steel 18/10,
for installation on side rails.

101.1580.0 Hand grip (piece)
integral foam upholstery in silver-grey,
for installation on side rail 101.1370.0.
(only in combination with Göpel leg supports 101.2270.0)

101.2310.0 Ergo Steps (pair)
leg support system with adjustable heel/calf troughs,
grey plastic, can be swivelled to the side, integrated
handles of circular tube in the same colour as the chair.
Attachment elements in stainless steel 18/10,
for installation on side rails.
(require 101.1370.0)

medi-matic®  

Accessories for all disciplines

Model No.	Description
101.4450.0	Leg plate extensible, integrated into seat section frame, with integral foam pad, grey (L 340 x W 470 x H 20 mm). Safe working load: 50 kg. (subsequent fitting possible, please contact our service dept.)
101.4460.0	Intermediate upholstery push-in-upholstery of integral foam, grey, for extensible leg plate 101.4450.0. (subsequent fitting possible)
101.4470.0	Leg plate push-in plate, upholstered (L 620 x W 550 x H 45 mm), leatherette cover acc. to colour chart. Safe working load: 50 kg. (subsequent fitting possible, please contact our service dept.)
101.3720.0	Head cushion leatherette cover acc. to colour chart.
101.4810.1	Protective cover for the upholstery of the seat section.

Model No. Description

100.1760.0 Paper roll
400 mm wide, stored into the integrated compartment.

101.6540.0 Shelf with supporting arm
can be rotated and swivelled, e.g. for instruments and equipment. Utilisable space: 309 × 285 mm, safe working load 10 kg.

101.4900.0 2 Power sockets for 115.7150.1
acc. to EN 60601-1. (subsequent fitting not possible)

101.4910.0 2 Power sockets for 115.7150.1 - "Swiss type" socket
similar to 101.4900.0, but "Swiss type" socket.
(subsequent fitting not possible)
Other country-specific sockets available on request.

101.6800.0 2 Power sockets for 115.7250.1 and 115.7550.1
according to EN 60601-1, activation of 1 socket by manual control unit. (subsequent fitting not possible)

101.6810.0 2 Power sockets for 115.7250.1 and 115.7550.1
Swiss design
similar to 101.6800.0, but "Swiss design".
(subsequent fitting not possible)
Other country-specific sockets available on request.

medi-matic®  

Accessories for all disciplines

Model No.	Description
101.4750.0	Foot rest for the doctor stainless steel (not possible in combination with the gyro flushing basin 101.4940.0/101.4990.0)
101.4520.1	Mounting step fixed to the chair, movable, tread of plastic material in silver-grey, (not possible in combination with mobility 101.2300.0 or gyro flushing basin 101.4940.0/101.4990.0)

Model No.	Description
-----------	-------------

101.4800.1	Plastic covers (pair) of transparent material, as foot support protection.
-------------------	--

101.2300.0	Mobility 4 double castors, Ø 75 mm, lockable and electrically conductive. (subsequent fitting possible) Not available in combination with the gyro flushing basin 101.4940.0/101.4990.0 and the mounting step 101.4520.1. Note: May not be used for patient transport!
-------------------	--

medi-matic® CCE^{MD} LED examination light

Model No.	Description
-----------	-------------

101.3140.0	LED examination light*
-------------------	-------------------------------

	<p>Flexible adjustment, safe and easy positioning. Light power 30,000 Lux at 0.5 m⁽²⁾, large homogenous light field for maximum ease of viewing, illumination area Ø 18 cm at 0.5 m⁽²⁾. Set colour temperature from 4,400 K, continuously dimmable. Fast cleaning thanks to closed construction. Maintenance-free thanks to LED technology. With external mains adapter. Fulfils the normative requirements of EN 60601-1 and EN 60601-2-41.</p>
--	--

With rail clamp for attachment to existing side rail, for examination chairs of the series **medi-matic®**, **arco** or **arco-matic®**.

For medi-matic® examination chairs without side rail at the seat section, please consider telescopic rod 101.3110.0/101.3120.0 or 101.0313.0!

Model No. Description

101.3150.0 LED examination light*

Same as model 101.3140.0, but with additional rail clamp and rail bracket, for examination chairs from the **medi-matic®**, **arco** or **arco-matic®** series with side rails on the seat section.

The arm can be used to increase the pivoting angle of the LED examination light to ensure straightforward use with examination chairs with electrically adjustable leg supports.

Note:

The LED examination light cannot be used in conjunction with the integrated version of the **vidan®2** video colposcope!

medi-matic® C€MD

LED examination light

Model No.	Description
101.3110.0	Telescopic rod, right* For attaching LED examination light 101.3140.0 on the right-hand side directly to the medi-matic® examination chair, continuously height-adjustable from 600 mm to 970 mm, made of stainless steel.
101.3120.0 (w/o ill.)	Telescopic rod left* Same as 101.3110.0, but for attachment on left-hand side.

101.3110.0 Telescopic rod, right*

For attaching LED examination light 101.3140.0 on the right-hand side directly to the medi-matic® examination chair, continuously height-adjustable from 600 mm to 970 mm, made of stainless steel.

101.3120.0 Telescopic rod left*

(w/o ill.) Same as 101.3110.0, but for attachment on left-hand side.

Model No.	Description
-----------	-------------

101.3130.0	Telescopic rod for colposcope support* Stand pipe for attaching LED examination light 101.3140.0, for use on medi-matic® examination chair with colposcope support, continuously height-adjustable from 800 mm - 1,400 mm, made of stainless steel. Can be retrofitted to existing colposcope support.

vidan®2

The first integrated Full HD video colposcope with touchscreen monitor.

The technically advanced video colposcope with Full HD and an integrated computer in the examination chair is the ideal addition to the medi-matic® examination chair.

Precise, bright, comfortable.

Maximum precision with Full HD

A successful colposcopy depends on details that can only be detected with maximum image quality. vidan®2 aids in diagnosis. Supports all common interfaces for integration into your own network.

Doctor-patient relationship

The freely swivelling, rotating and tilting monitor provides optimal display of the examination and allows the patient to be involved in the examination if she wishes. Build trust through dialogue.

Ergonomic and time saving

The integrated computer guarantees that the examination results can be backed up quickly and easily right on the medi-matic® examination chair. vidan®2 can be used in an optimally ergonomic, fatigue-free sitting position, thus facilitating the physician's work.

SCHMITZ

vidan®2

Easy to handle

The control elements

Clearly arranged operating elements for an intuitive control and handling of the video colposcope.

Two freely definable magnification values, which can be easily accessed at the touch of a button, help reduce the examination time.

Transfer of ultrasound images

The vidan®2 screen display can be switched over to the connected ultrasound scanner or another digital video source. The swivel functions of both monitor and monitor arm allow integrating the patient into the examination and diagnostics.

Training of assistant physicians

The HDMI interfaces allow mirroring the image currently displayed on the vidan®2 monitor on another screen. This feature can be used to support the training of assistant doctors.

Uninterruptible Power Supply (UPS)

In the event of an unexpected voltage drop or sudden power cut, the Uninterruptible Power Supply will provide voltage for a maximum of 2 minutes. The UPS will put the system into safe mode and will save any unsaved data. The computer on the vidan®2 will only restart once the UPS has charged to 90%.

vidan®2

Flexibility in display

Freely swivelling screen

The freely swivelling, turning and inclinable screen supports an ideal visualisation of the examination. The 160° swivelling monitor arm allows the patient to be integrated even more closely into the examination and diagnostics.

Input via touch screen

Patient data can be entered directly via the touchscreen of the monitor.

Easy to handle

Switching to the external video source directly at the monitor.

Ultra-bright: LED illumination with green light/green colour filter

Examination light

Ultra-bright LED illumination with a colour temperature of approx. 5.700 K and 2 stages of brightness. An additional stage serves as an examination light with an impressive realistic colour display and a brightness of 30.000 Lux at 250 mm distance.

Green light/green colour filter

Green light with an additional electronic green colour filter can be enabled for an improved visualization of the vascular structure in Pap smears. It increases the contrast and supports enhancement of individual structures, thus facilitating the physician's work.

vidan®2

Outstanding: image quality and technology

Zoom

The variable zoom allows different views to be displayed with pinpoint accuracy. Up to 36.5x variable optical magnification means that even the tiniest details can be displayed in Full HD quality. Two freely definable zoom values, can be easily accessed at the touch of a button.

Autofocus

Autofocus independent of the zoom factor is active in a working distance of 250 - 330 mm. In addition, the focus can be readjusted manually.

Displaying

Displaying and evaluation of the examination area on a 21,5" monitor. The excellent full HD image quality facilitates diagnostics and decision-making for the correct treatment. Thus, high-precision technology provides an additional safety bonus for the patient.

Green light

Green light for an improved visualization of the vascular structure (please see also page 55).

Foot control

The "Save Image/Video" function can additionally be triggered by a button on the foot control of the medi-matic® examination chair.

vidan®2 software:

The integrated solution for efficient working – comfortable, fast and easy to operate

Easy creating of new personal entries directly via the touchscreen monitor

Patient allocation can therefore be done directly at the examination chair. If the vidan®2 has been integrated into an existing medical/hospital information system, patient data can also be accessed from the system or a worklist.

User-friendly to the last detail

New images or videos are automatically allocated to the patient. The pre-installed SCHMITZ software includes a useful comment function for annotating images.

Selecting created images/videos for archiving in the patient file.

The data can also be exported to a drop folder in the local network or to a USB stick connected to the examination chair.

vidan®2

Connecting to the medical office software

Information on connecting to the medical office software

vidan®2 can be operated autonomously via a USB memory device (not included in the delivery) for archiving images and videos. In addition, archiving can be done through a network link via a specified output folder in the local network.

Optionally, vidan®2 can also be integrated into existing IT systems via DICOM, GDT or HL7 interface. Please check with your IT service provider whether vidan®2 can be integrated into your existing medical office software.

SCHMITZ does not connect, install and/or implement the vidan®2 software into existing IT systems nor does it act as an advisor. SCHMITZ also does not guarantee the integration of the software into existing IT systems and a second video source, such as an ultrasound device.

§ Please take note
of the Medical
Devices Act,
in particular,
the Medical Device
Operator Ordinance for
all potential connections.

arco-matic®

The definition of exceptional design and state-of-the-art technology at excellent value for money.

Ergonomic

A width of upholstery of up to 680 mm at the back section and an individually adjustable head cushion attached magnetically to the chair offer patients pleasant and comfortable seating. With an access height of only 550 mm, even older or physically challenged patients can easily take a seat on the chair, and even at its lowest level, the seat position remains horizontal.

Strong

Designed for a working load of 250 kg, the chair offers great safety and many treatment options even for adipose patients.

Time-saving

Optimised adjustment speed and four freely selectable memory positions allow quick adjustment to the relevant position.

Functional

The backrest can be moved to a horizontal position; this means that patients can be positioned flat, e.g. for an ultrasound examination, or in a shock position in case of an emergency. The deep gyn. cut-out of 155 mm offers improved access to the examination area. Even if the patient is in a position of pelvic elevation, the rinsing basin stays horizontal.

Central lock

arco-matic®**Optimised use, high level of comfort,
first-class design****Horizontal position**

The backrest can be moved to a horizontal position; this means that patients can be positioned flat, e.g. for an ultrasound examination, or in a shock position in case of an emergency.

Mobility

Level, enclosed areas and the absence of corners and edges make for improved hygienic conditions and easy cleaning. Even the area under the arco-matic® can be cleaned thanks to its mobility (optional), which also enables flexible use of the treatment area and room layout.

Awards

A benchmark for quality and design:
the arco-matic® has won the prestigious reddot Design Award.

arco und arco-matic® combined with Orbit

A clear design concept for gynaecological surgeries

Whether it's the low access height, making it easier for patients to take their seat, the memory function allowing a quick adjustment to the relevant position or the deep gyn. cut-out, which facilitates the examination – both arco and arco-matic® are designed for the special requirements of daily medical practice.

They are perfectly supplemented by Orbit – the modular supply and disposal concept for gynaecological workplaces, which can be adjusted to every set-up. They thus form part of a particularly functional furnishing concept that is available in many attractive colour schemes.

For further information on our Orbit range, please see pages 126 ff or our website.

Examination and Treatment Chair for Proctology

Excellent design,

most modern technology and a strong price–performance ratio

Electromotive foldable seat section

Safe positioning of the patient

with foldable seat section by electrical shutdown

Electromotive adjustment of

Trendelenburg position and seat section

Ergonomic leg and foot support system

with integrated armrests for a relaxed and professional examination position

Variable fit-out options

with an extensive assortment of accessories

Easy to keep clean and hygienic

due to smooth, closed surfaces

Illuminated graphics display

to indicate all chair functions

Electronic diagnostics function

1 additional programmable key e.g. for triggering of a cold light source with integrated sockets Storage and display of 8 memory positions (treatment positions/physician's selection)

Soft start-up of chair adjusting movements

Control of all adjustments

by foot or hand control

arco**Examination and Treatment Chair for Proctology****Technology and efficiency**

A lower starting height, perfect for getting on easily. Predefined and saved treatment positions allow for quick, efficient handling.

Examination comfort and safety

The folding seat section enables optimal access to the patient and allows the doctor to set the required treatment position. The electric automatic switch-off feature during positioning supports safe patient positioning.

Large adjustable range

via electromotive pelvic elevation to shock position

Choice of leg support systems

- with foot rests 101.4560.1.
- with Göpel-type leg supports 101.4580.0.
- with Ergo-Steps 101.4570.0

arco proctology

Standard equipment

Ergonomic upholstery on seat, back rest and head. Foot support mounts for quick removal or individual swivelling on a horizontal level of foot supports or Göpel-type leg supports with integrated handles. Storage plate with integrated pull-out, rinsing basin of SST 18/10, storing space for paper roll up to 400 mm width, two integrated power sockets, acc. to EN 60601-1, (activation of one socket by manual control unit). Foot control, base plate with 4 levelling screws, plastic cladding, silver-grey, column and frame powder coated according to SCHMITZ colour chart. Upholstery according to SCHMITZ colour chart.

Important:

Automatic security stop with foldable seat section in Trendelenburg position.

Electrical connection:

3 m connection cable with mains plug.

Connection: 230 V, 50 Hz, 0.3 kW.

Country specific versions available upon request.

Weight:

Net weight: approx. 121 kg

Safe working load: 180 kg

Powder coated finish:

High quality multilayer gloss paint of extreme knock and scratch resistance.

Easy to clean and to disinfect. Resistant to climatic conditions. Available in SCHMITZ colours acc. to colour chart (without surcharge).

Further optional colours acc. to RAL colour chart at extra charge.

Upholstery:

High quality, hard wearing foam rubber with leatherette cover.

Available in SCHMITZ colours acc. to colour chart without surcharge (classic and comfort qualities).

When ordering:

Please state the following when ordering:

Foot/leg support system: see page 124

Upholstery colour: see colour chart page 152

Plastic enamel coating

for frame: see colour chart page 152

4 double castors, Ø 75 mm,
lockable and electrically conductive.
(subsequent fitting possible)

Note:

may not be used for patient transport!

101.3730.0 Head cushion

incl. Velcro, leatherette cover acc. to colour chart.

101.4800.1 Plastic covers (pair)

of transparent material, to protect the foot supports.

100.1760.0 Paper roll

400 mm wide, for placing into the integrated
storing space with removable back upholstery.

Orbit

The modular Supply and Disposal System for Gynaecology and Proctology workplaces

Patient comfort comes first

Preheated instruments guarantee a high level of patient comfort. The preheating technology developed by SCHMITZ enables custom temperature adjustment.

Mobility and flexibility

9 individual, mobile modules, which can be arranged and rearranged just as you need them. Additions and changes to the module configuration can be made whenever needed. The modules can easily be integrated even into an existing setup.

Orbit

Orbit helps you keep everything under control.

Easy cleaning and disinfection

Removable panels and closed surfaces enable rapid, complete and straightforward cleaning – a new standard in hygiene.

Mobility and flexibility

100 % unrestricted mobility is guaranteed – adapted to your daily workflows.

Orbit solves your disposal problem

A specially equipped module ensures hassle-free disposal of contaminated instruments and used materials.
